

STATEMENT FROM NEW DIRECTIONS EARLY HEAD START POLICY COUNCIL AND BOARD

New Directions Early Head Start (NDEHS) Policy Council and Board wants our community to know that we see our Black community and people of color who are mourning the loss of George Floyd and many other people and digesting all types of emotions at this time.

The Policy Council and Board of NDEHS would like to let you know that we stand with you, in solidarity, in the fight for justice and equality because Black Lives Matter.

We support the protest to end police brutality, racism, and inequalities. Our programs are committed to serving our families by respecting, empowering, valuing individuals and their different perspectives. We want our children and their families to be safe and comfortable in and out of their homes.

We must stay strong and united during these times.

Black Lives Matter!
